Forbo, Heikkinen Yhtiöt, Icopal, Kährs, Katepal, KerabitPro, Oulun seudun maalaus, Maalausliike Mika Aaltonen etc.

# Confederation of Finnish Construction Industries RT (CFCI)

- Rakennusteollisuus RT (CFCI) represents construction companies in industrial policy, technical matters and labor market matters
- The RT federation consists of a main federation and six industries: Building Construction, Construction Product Industries, Infra Contractors, Building Services, HPAC Branch and Surface Branch
- RT is one of the largest member organizations of the Confederation of Finnish Industries (EK)
- All major associations of companies operating in the building, construction and specialty industries are members of RT
- RT has almost 3,000 member companies, which are employing around 60,000 people. The total turnover of the members is EUR 20 billion

# Operation idea

- **Operation idea:**

- To promote profitable and long-term business operations for its member companies
- To ensure that the interests and importance of construction industry are strengthened both within Finland and the globalizing operating environment

- **Targets:**

- To promote co-operation within companies and associations in the construction branch
- To strengthen trusteeship of construction industries and its influence both in Finland and in the field of international operational environment (globalization)

Rakennusteollisuus RT (CFCI)

(In total 2 928 member companies / 31.12.2020)

Building Construction	Construction Product Industry	Infrastructure	HPAC contractors	Surface contractors	Building Services
<b>6 regional offices (9 district associations)</b>	<b>4 sections</b>	<b>7 regional offices (9 district associations)</b>			<b>Talotekninen teollisuus ja kauppa ry LVI-Numero Oy</b>
<i>528 member companies (31.12.2020)</i>	<i>104 member companies (31.12.2020)</i>	<i>1 618 member companies (31.12.2020)</i>	<i>338 companies (31.12.2020)</i>	<i>295 member companies (31.12.2020)</i>	<i>45 member companies (31.12.2020)</i>

# Tasks and Strategic Priorities of RT 2017-2022

MISSION: Together we build Finland's way to success.

Work

## GROWTH

*Construction markets, implementation models, construction legislation and regulatory processes*

➔ RT creates the conditions for growth, profitability and predictability

Efficiency

## DEVELOPMENT

*Preconditions, regulations, guidelines and standards for productivity and quality, environment and energy*

➔ The productivity and quality of construction will improve and the life cycle costs and environmental impact will be reduced

Workers

## WORKING LIFE

*Labor market and collective agreements, skills and employment, well-being and safety at work, combating the informal economy*

➔ Genuine local agreement and flexible working conditions, the availability of a skilled workforce and healthy working and competitive conditions increase competitiveness

## INFLUENCE

*Public relations, information, communication*

➔ RT has a strong position as a source of information and opinion leader in construction

VISION: We will renew together and exceed expectations.

# TOP10 goals for 2020

## GROWTH

- 1 Streamlining of regional planning and construction in MRL\* reform
- 2 Increasing the target levels and duration of MAL agreements
- 3 12-year transport system plan and decisions on major rail projects
- 4 Deregulation of housing loans

## DEVELOPMENT

- 5 Industry-driven road map: Low carbon construction industry 2035
- 6 Implementing the roadmap for sustainable construction
- 7 Accelerating the digitalization of the construction industry

## WORKING LIFE

- 8 Improving productivity with a competitive and broad-based collective agreement solution before the end of the contract period
- 9 Continuous safety improvement with 0 accidents follow-up project

## INFLUENCE

- 10 Describing the significance of construction with the story of future construction

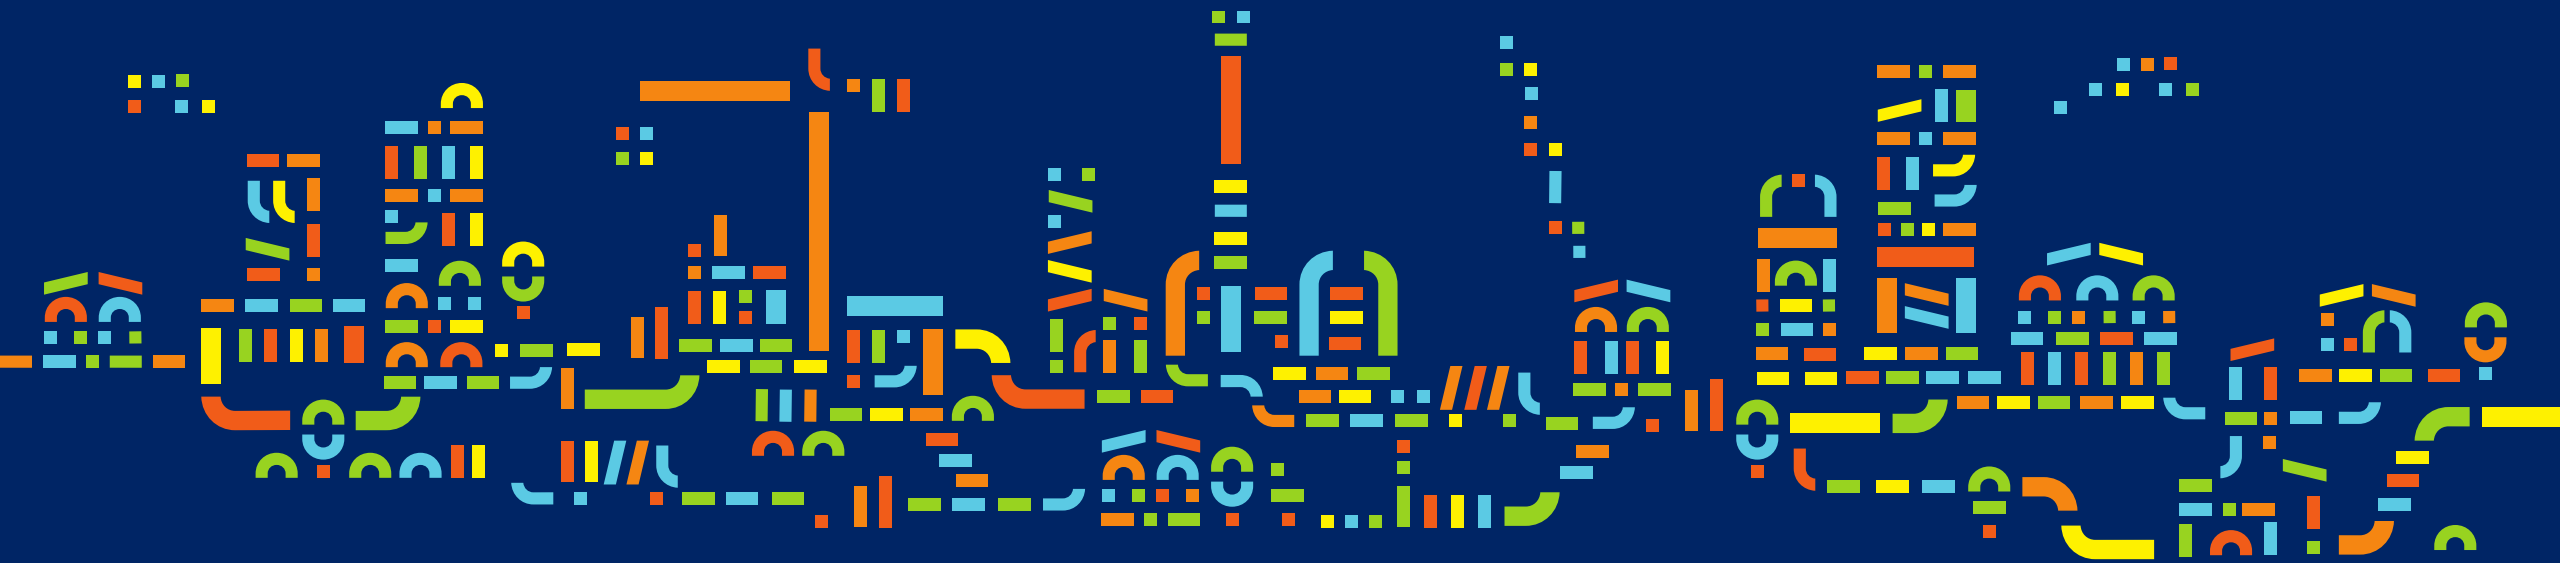

\* MAL = Regional planning, housing, transport  
\*\* MRL = Land Use and Building Act  
\*\*\* KIRA = The branch of real estate and construction
